

Summary

Senior Software Engineer with 6+ years of experience designing and delivering scalable, high-performance web and mobile applications using React, React-Native, TypeScript, Node.js, Express.js, and MongoDB. Proven track record of leading cross-functional teams, architecting customer-facing platforms, and optimizing application performance for products serving hundreds of millions of users. Experienced in building AI-powered solutions using OpenAI, Azure OpenAI, Anthropic Claude, Google Gemini, and GitHub Copilot to improve developer productivity and user experiences. Skilled in full-stack development, cloud technologies, RESTful APIs, testing, and Agile methodologies, with a strong focus on clean architecture, performance optimization, and delivering measurable business impact.

Skills

Frontend Development	React,React-native,Three.js, react-three,GSAP, HTML5, CSS3, JavaScript, TypeScript, Responsive Web Design, Web Performance Optimization, Digital Accessibility (WCAG), JAWS
Backend Development	Node.js, Express.js, REST APIs, GraphQL, MongoDB, Firebase, Microservices, API Development
Cloud & DevOps	AWS, Docker, Kubernetes, CI/CD, GitHub Actions
Programming Languages	JavaScript, TypeScript
AI & Developer Productivity	OpenAI, Anthropic Claude, Google Gemini, GitHub Copilot, AI-Assisted Development, Prompt Engineering
Architecture & Engineering	System Design, Software Architecture, Performance Optimization, Technical Documentation
Project Management & Collaboration	Agile Methodologies, Scrum, Jira, Confluence
User Engagement & Integrations	MoEngage, QuickBlox Chat, WhatsApp Integration, Video Calling Integration, Audio Calling Integration, SEO
Testing & Quality Assurance	React Testing Library, Jest, Mocha, Enzyme, Apache JMeter, BlazeMeter, Unit Testing, Integration Testing

Experience

Royal Cyber Inc

Sr. Software Engineer	Oct 2025 - Present
- Developed and maintained the customer-facing website for a leading cruise company, delivering key features such as end-to-end cruise booking, responsive user interfaces, and performance enhancements. - Led the design and implementation of the company's admin panel, developing a robust CMS, notification system, and administrative tools to efficiently manage content and operations.	

Conde Nast Technology Labs

Sr. Software Engineer	June 2023 - December 2023
- Led the design and implementation of numerous web interfaces, successfully serving a substantial user base of around 1.5B MAU's. - Crafted responsive layouts for 404 pages across major brands including Vogue.com, Allure.com, TeenVogue.com, and them.us. - Initiated the ground-up development of these pages using new technologies, achieving a remarkable reduction in page load time from 1000ms to 500ms - Achieved full test coverage of 100% for both backend components utilizing Node with MongoDB and frontend components built with React.	

- Demonstrated extensive full-stack development expertise by effectively utilizing a technology stack comprising React, Enzyme, Jest, React Testing Library, Node, Express, and MongoDB, achieving a decrease in page load time from **1000ms to 500ms**.

Housing.com

Software Development Engineer

June 2021 - March 2023

- Played a pivotal role in improving the performance of the application and website for **500M MAU's**.
- Elevated performance metrics, categorizing **70% of total pages as 'Good,'** showcasing substantial improvement in user experience.
- Successfully increased the Google App Store rating from **4.0 to 4.7** within a year, demonstrating a strong commitment to quality and user satisfaction.
- Incorporated MoEngage Notifications, QuickBlox Chat, and WhatsApp to boost engagement and communication for an estimated **50M users**.
- Executed the implementation of **Verified Links for Android 12+ within 10 days** of its announcement on Google Android Developers page, highlighting agility and up-to-date skills.

Navia Life Care Pvt. Ltd

Senior Frontend Engineer

March 2020 - February 2021

- Directed a team as a Senior Front End Developer at a product-focused healthcare company, concentrating on virtual consultations between patients and doctors, resulting in approximately a **200% increase** in active users.
- Independently created the patient interface of the **web application within 7 days**, unveiling the ability to deliver under duress.
- Mentored developers within the team to enhance code quality and efficiency; managed weekly knowledge-sharing sessions that resulted in a measurable improvement in coding standards across all projects which helped **reduce the resource size by 12%.**
- Implemented a comprehensive Appointment Scheduling feature, improving the efficiency of patient appointments and leading to an approximate **120% increase** in consultations.
- Spearheaded the creation of Electronic Medical Record (EMR) prescriptions, facilitating streamlined healthcare processes and contributing to an estimated **50% growth** in the user base.

Quarks Technosoft Pvt. Ltd

Frontend Developer

March 2019 - March 2020

- Significant contributor at a service-oriented company with \$2.2 million in funding, excelling in intern management and delivering impactful solutions.
- Initiated the development of plugins for JIRA and Confluence, significantly **enhancing functionality and operational efficiency.**
- Creatively developed browser extensions for major platforms (Chrome, Firefox, Edge, Internet Explorer), increasing product accessibility with around **4,000 installations on the JIRA platform.**
- Contributed significantly to improving user experiences through the integration and customization of Atlassian tools, resulting in the acquisition of multiple projects from a client generating **approximately \$4 million in revenue.**

KindKonnnect Technologies Pvt. Ltd

Frontend Developer

June 2018 - Feb 2019

- Significant contributor at a service-oriented company which received **Global AI AICRA award for a project by UP police.**
- Developed and Delivered project with **1 video and 3-4 audio streaming** on the same page which was built for the learning purpose of budding musicians.
- Developed project for Naik Industries Pvt. Ltd. which has a share capital of 1.25M.

Education

B.E. Information Science & Engineering

2015

Vishveshwaraya Technological University, Belagavi, Karnataka - 590018
